COMMISSION GOVERNMENT

An election has been called for the voters of Crittenden county to decide whether they will have the license of the county under the jurisdiction of three commissioners and a county judge or whether they will leave it as it is, eight Magistrates and the County Judge.

As we understand it, the county would be divided into three districts, according to the number of voters, and each district would nominate a candidate to participate in the regular primary and the Commissioner to be elected in the regular election in November, to serve a term of four years.

These Commissioners, with the County Judge would compose the fiscal court and therefore have charge of the county finances. The Magisterial districts would remain the same as at present and the Magistrates would have charge of the legal business in their respective districts.

The question of the Commissioner would be fixed as the salaries of the other county officers.

The only question to be decided is will the commonwealth of government be to any better advantage than the present form of government, if so, what advantages. If these men can manage the county business with more efficiency and more economy than give to the Commissioners. If the Magisterial form can do the best then let us continue as before.

The Press is from Marion, and will have to be shown.

HOLD ON TO YOUR SHEEP

It is generally recognized as sound live stock policy to get it when everybody else is getting out. There is a general tendency from farm to ranch to sell sheep. The ranchman may be forced to sell sheep and his sheep business may be large enough to mean financial ruin to him at the time. There are many any farmers who are obliged to sell sheep. Why close out now on one of the worst slumps the market has ever known?

The United States consumed five million more pounds of mutton last year than ever before. Mutton is healthful meat.

Wool is cheap and slow any compared to last year, but still higher than some years ago. The price must be clothed and fed. Wool is necessary. And we may reasonably expect congress to increase wool tariff.

The average price for lambs for the last ten years has been \$1.10 and for sheep \$8.45. Hogs \$10.00 and cattle \$6.00. (Illness Journal)

Central Europe is working toward a restoration of its industries, and with this restoration will come increased buying power. Australia and New Zealand continue to go to these countries and our own market will be restored to something like its normal balance. The wool pays the board of the ewe, the least or profitably profit.

Why sell the sheep?

FREE TRIPS TO CHICAGO FOR 1921 FIFTH WINNERS

Free trips to the city of Chicago, the largest and most interesting city in the world, will be provided for the Kentucky tobacco growers of 1921. The winners of the contest will be provided for the Kentucky tobacco growers of 1921. The winners of the contest will be provided for the Kentucky tobacco growers of 1921.

Any Kentucky tobacco grower who enters the contest by getting in touch with Mr. Barker, the county judge, or leader of the county farm or home demonstration agent. The only requirement for these winners is that they prepare a brief story of their experience at the trip.

Have you tested your land yet? Don't delay. It is a very simple job and to know what kind of a grower you will have to increase in wealth this year.

OBITUARY

Albert N. Perry was born Aug. 25, 1868 and died January 25, 1921. On August 5, 1918 he married Jennie Riley and one daughter shared their home.

Father mother two brothers and two sisters are left to mourn his loss. He professed faith in Christ October 17, 1906 and lived a Christian life from that time until death. He was married to his wife about four weeks. The death left a vacuum in the heart of his loved ones that will not be filled in this earth, but one day he will go as we feel that he will go to his home in Heaven.

We do not understand what he has died away from us in the prime of life, but the Lord will surely be done and we will understand by and by.

Our Methods Are Modern

We do not hesitate to indicate the methods of handling the advertising and other editorial work, if we are doing business with you and we are doing it.

A large part of the work that has been done slowly and hesitatingly by hand is now handled rapidly and with the greatest accuracy by machine. A much larger quantity of work than ever before would be required to handle the business if we still employed old-fashioned methods.

We do not want to be slow, but we want to be fast. We want to be fast and we want to be accurate. We want to be fast and we want to be accurate. We want to be fast and we want to be accurate.

Acid Stomach For 10 Years

Now a Different Woman

Earnestly Praises Eatinic

"My wife was a great sufferer from acid stomach for 10 years," writes G. H. Crippen, "but is a different woman since taking Eatinic."

Sufferers from acid stomachs let Eatinic help you now. It quickly takes up and carries out the excess acidity and gases and makes the stomach cool and comfortable. Your digest easily, get the full strength from your food, feel well and strong, free from bloating, belching, bad repeating, etc. Big box costs only a little more than your druggist's guarantee.
